This beautiful prayer must have been breather from Barry Cornwall's boart while sitting at his quiet fireside, looking into the face of his sweet wife, and recking the cradle of his "golden-tressed Adelaide.

TOUCH US GENTLY, TIME. Touch as gently, Time! Let us glide adown thy stream Cently as we sometimes glide Through a quiet dream? Humble voyagers are we. Husband, wife and children three (One is lost—an angel fled To the azure overhead!)

Touch as gently, Time! We've not proud or soaring wings; Our ambition, our content, Lies in simple things, Humble voyagers are we, O'er life's dim, unsounded sea, Seeking only some calm clime: Touch us gently, gentle Time

13 A maiden lady, not remarkable for either yeuth or beauty, or good temper, asked the advice of a neighbor as to how she should get rid of a troublesome suitor. 'Oh, marry him,' was the advice; 'Nay, I would rather see him hang first. 'No madam, marry him as I said to you, and I'll assure you he will not be long before he hangs himself."

To A gallant New England Knight of the Quill, describing a country dance, says: "The gorgeous strings of glass beads now glisten on the heaving bosoms of the village belles, like polished rubies resting on the surface of warm apple dumplings.

Sam Slick utters some queer sayings. He has more truth than poetry in many of his hits, such, for instance, as the following, touching female curiosity: -"Nothin" squire, ever stops a woman when her curiesity is once up, especially if she be curious to know something about herself.-Only hold a secret in your hand to her, and it's like a bunch of catnip to a cat; she'll jump, and frisk and frolic around like every thing, and never give over purrin' and coaxin' of you till she gets it.'

BLANK DEEDS, neatly printed on the Blank Mortgages,

Insensible Perspiration.

The preceding figure is given to represent the INSERSIBLE PERSPIRATION. It is the great EVA-CUATION for the impurities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates that this perspiration flows uninterruptedly when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. Thy language of Scripture is, "in the BLOOD is the Life." If it ever becomes impure, it may be traced directly to the stoppage of the INSENSIBLE PERSPIRATION. Thus we see, all that is necessary when the blood is stagmant, or infected, is to open the pores, and it relieves itself from all impurity instanta. Its own heat and vitality are sufficient, without one particle of

medicine, except to open the pores upon the surface. Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the Insensible Perspi ration. The Thompsonian, for instance STEAMS the Hydropathist shrouds us in wet blankets, the Homopathist deals out infinitissimals, the Allopa-thist bleeds and doses us with mercury, and the

blustering Quack gorges us with pills, pills, pills.

To give some idea of the amount of the Insensible Perspiration, we will state that the learned Dr. Lewenhock, ascertained that five-eights of all we receive into the stomach, passed off means. In other words, if we eat and drink eight pounds per day, we evacuate five pounds of it by the Insensible Perspiration.
This is none other than the used up particles of

the blood, and other juices giving place to the now and fresh ones. To check this, therefore, is to retain in the system five eights of all the mat-ter that nature demands should leave the body. By a sudden transition from heat to cold, the

pores are stopped, the perspiration ceases, and dis-ease begins at once to develop itself. Hence, a stoppage of this flow of the juices, originates so many complaints. It is by stopping the pores, that overwhelms mankind with coughs, colds, and consumption.— Nine tenths of the world die from diseases induced by a stoppage of the Insensible Perspiration. Let me ask, now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores, after they are closed. loths, Damask and Russia Diapers, Damask and give physic to unstop the pores? The preparation is called "Dr. Rogers" Comcases of the chest, consumption, liver, involving the utmost danger and responsibility, and I de-clare before Heaven and man, that not in one single case has it failed to benefit, when the patient

was within the reach of mortal means.

I have had physicians, learned in the professions bench, Alderman and Lawyers, gentlemen of the highes crudition and MULTITUDES of the POOR me it in every variety of way, and there has been but one voice-one united, universal voice-saying "McAlister, your olutment is GOOD."

Consumption.—It can hardly be credited that a salve can have any effect upon the lungs, seated as they are within the system. But if placed upon the chest, it penetrates directly to the lungs, separates the poisonous particles that are consuming them, and expels them from the system. I need not say it is carring persons of Consun

tion continually, although we are told it is foolish-ness. I care not what is said, so long as I can cure several thousand persons yearly.

Headache.—The salve has cared persons of the

regularly every week, so that vomiting often took Deafness and Eur Acho are helped with like suc

Cold Feet.—Consumption, Liver complaint, pains in the chest or side, falling off of the hair, one or the other, always accompanies cold feet. The Salve will cure every case.

In Scrofula, Erysipelas, Salt Rheum, Liver Camplaint, Save Eyex, Quincy, Save Throat, Bronchitis, Broken or Save Breast, Piles, All Chest Diseases such as Asthma, Oppression, Pains also, Sore Lips, Chapped Hands, Tumors, Cutaneous Eruptions, Nervous Diseases and of the Spine there is probably, no medicine now known so good-and as for Burus it has not its equal in the world! Pimples on the Face, Masculine Skin, Gross arface. - Its first action is to expel all humor. -

It will not cease drawing till the face is free from any matter that may be lodged under the skin, and frequently breaking out to the surface. It then heals. When there is nothing but grossness, or dull repulsive surface, it begins to soften and soften until the skin becomes as smooth and delicate

as a child's.

Worms.—If parents knew how fatal most medicines were to children taken inwardly, they would be slow to resort to them, Especially "mercurial loxenges," called 'medicated loxenges," "vermifuges," pills, &c. The truth is, no one can tell, invariably, when worms are present. Now let me say to parents, that this Salve will always tell if a child has worms. It will drive every vestige of them away.

the ordinary mode of treatment

This is to certify that my wife was attacked with a violent cough, which settled on her longs and re-duced her so low that her physician could do no more for her. She exhibited precisely the same symptoms as my daughter did before her death (she having died with the same disease) and all our friends were convinced she would live but a short time longer. I was at this time recommended to try Dr. Rogers' celebrated Syrup of Liverwort and Tar. With little or no hopes, I procured a bottle of the agent in this city, and upon returning I found my wife absolutely strangling with her cough. I commenced giving large doses—a teaspoonful every hour, for forty-eight hours—which raised her as by a miracle. I have since administered it in small doses, which has brought her to the use of the fourth bottle, and she is now doing her house-work as usual. I have not the slightest fount that she would have been in her grave but for this invaluable medicine; and I return my sincere thanks to the eminent inventor of it, and do most organity recommend all persens afflicted with any

lisease of the lungs to give it a trial.
